

ERROR 2002 (HY000): Can't connect to local MySQL server through socket '/var/lib/mysql/mysql.sock'

解决办法：

打开my.cnf文件

vim /etc/my.cnf

```
[root@izwz93bc56k6c7z4vznmifz /]# vim /etc/my.cnf
```

找到[mysqld],在它的后面任意下一行添加如下代码：

socket=/var/lib/mysql/mysql.sock

```
[mysqld]
#skip-grant-tables
socket=/var/lib/mysql/mysql.sock
# Remove ading # and set to the amount of RAM for the most important data
```

保存退出，重启mysql
